As an individual I understand all the student problems and I think so I can help them to get what they need from university. I represent them at all platforms. “I am hereby interested in applying for the role of Chairman- Students' Council to bring about a noticeable change in the Union by being the students' voice representative.

My earlier experience in similar kinds of responsibilities will come in as handy, because I was representing the entire BMS Council during my college days in India. During my tenures, I made representations to the college management on various pressing issues of the students such as transportation aspects, student hostel facilities, opportunity for finding internships etc.

Also I made effective representations and solved important issues faced by the foreign students coming from African nations, especially the issues pertaining to communication and difficulty in interacting with the local service providers.

This being one of the most important platforms to make use of my managerial and leadership skills adds on to my career growth.”
“My name is Omonefe Davies, and I am running for the Chair of Student Council. I currently study MSc International Business and I am in my second year.

I am running because I would like to see a change in students perception of the SU and get them actively involved. I want students to gain insight of how the SU council works and how they can best benefit from it. I intend working with members of the Union Council to produce a quarterly report that students can read and submit feedback. I believe this would be an effective method of increasing students engagement with the SU thus enabling the elected officers to know areas to effect change.

I have a rational outlook and I have the confidence to chair meetings with diverse viewpoints especially when they turn emotive. I am a good communicator with excellent written, verbal and listening skills.”
“From my school time, I never lose a chance to take part in any curricular and co-curricular activities. If it does happen and I do become the chairperson, I will try my best to make life better for university students, I still don’t know the limits of the powers but I was thinking of arranging fun activities or events for all the students to engage in and have fun all around. I feel that university life most of the time has a huge physical and emotional toll on an individual, and in my opinion the duty of the student council is to take some of that toll off of the student, if I get picked for student council chairperson, I will try my best to do that.”
9. Buthaina Alhadi

I’d likewise prefer to be a functioning part in my university by aiding at functions like events and parties and all the activities and, I want to be a pioneer and have the option to speak to my university at its best, be my colleague’s voices. Generally, I’d prefer to help other people around me in any circumstances.”
10. Ibrahim Badsha Mohammed

“As a Chair, it would be my privilege to be the Voice of the Students in a larger capacity. From the past 2 years of experience as a student and as a student representative, I feel that the students deserve more freedom of expression. If I am elected I would definitely make sure that the problems which persisted back won’t persist now. Attendance to the Student Council is one of the main issues and I would like to make a change for that. Even though not all students are willing to attend or can attend, I feel there should be an urge for atleast 2 or 3 Students from each department of the School to have a say in each meeting.

I would like to introduce an extra position within the council for that purpose so that they willingly agree that they’d be available for all the meeting. If I am elected as the Chair, I would lobby for the leisure activities of the students such as atleast once in a month trip which can either be conducted school wise or UH as a whole.”
11. Chante-Marie Dante

“I think I should be the chairperson of the student council because I think I have what it takes to be one. I'm going to be honest, i'm stand-offish, i like to work by myself, but with what comes with my flaws, i think my strengths outshine them such as me being a kind, honest and hard-working person. I want to be a journalist one day, which shows that i'm creative, ah well not really, i just wanted to add that for the sake of it. The point is, i think it would be good for me because i used to bad self-esteem issues, and.. sometimes i have off days, but i feel like everyday im getting stronger and stronger, and loving myself more everyday. Thats why I definitely have what it takes to be a good, balanced leader. I hope you consider it. Thank you.”

I am a man of my words, and I have what it takes to help make things better at herts. I am fearless, confident, hardworking and above all I am a young intelligent man with a good heart.

If I am being voted as a member (chair) of the student union I promise to do my best and make Herts better place for us all.”

I am currently running a debating society as I am comfortable managing and welcoming other people's viewpoints. I have a good understanding of students issues as I myself am an involved student within the community. This allowed me to make myself familiar with problems that arise and helped me to appreciate how most of the issues are actually experienced as a community rather than individually. I have good communication skills due to my work experience in customer service and teaching.

“Student council helps to understand and share student views and issues by providing a platform where students can raise their voices in form of motions, for anything they want Student’s Union to do in order to make their student experience better. It’s very important to look into our sabbatical officers’ progress who represent thousands of students and work for their betterment. They are accountable for their aims, pledges and their ways of working.

I believe I am capable of becoming Student Council Chair, as my past experience as NUS Delegate and current Student Trustee has enabled me to take decisions through my unbiased thinking. I have the patience to listen and welcome all kinds of ideas, opinions and debates. If you elect me as your Chair, you will have someone who understands the current issues faced by students in-depth.”
